
JUNE BALLOT PROPOSITIONS

Stop the Lies!

Vote YES on 13 and 15
Vote NO on 14, 16, and 17

13-YES Allows seismic retrofitting without adding to the property's tax assessed value.

14-NO Changes the way primary elections work, sending only the top two vote getters into the general election regardless of party. Would limit voter choices in many cases to only one party and would shut out smaller parties and write-in candidates.

15-YES Allows public financing of elections. Limits corporate donations. Paid for by fees on lobbyists, not taxpayers. Limited to the Secretary of State election beginning in 2014.

16-NO Protects PG&E monopoly by requiring a 2/3 vote to allow communities to purchase their own renewable power. Placed on the ballot by the efforts (and money) of PG&E.

17-NO Allows auto insurance companies to charge drivers as much as double premiums if they are late with their payments. Placed on the ballot by the efforts (and money) of Mercury Insurance.

Paid for by Valley Grassroots for Democracy (www.vgfd.net) and not authorized by any candidate or candidate's committee.
